

EINHEITSFRONT-AUFRUF: Stop police violence

The rioting on British streets over the last few days shows the devastating impact that racism and poverty, compounded by vicious spending cuts can have on working class communities. Although it was the injustice of the police that caused recent events, they are now attacking working class and migrant communities with mass arrest, extreme violence and criminalisation by the media. Fascist organisations such as the English Defence League are using the situation to carry out racist attacks in the name of 'restoring order.' As anti-racists and anti-fascists from across Europe, we stand in solidarity with working class and migrant communities suffering from this repression, and defend them against the attacks by racists and the police. We call for actions of solidarity to take place in every country, and for an end to racism, repression and violence.

No to poverty and racism!

Wir bitten alle politischen Organisationen und Einzelpersonen diesen zu Unterzeichnen, damit wir ihn in die britische Linke und ArbeiterInnenbewegung tragen können, um ihnen gegen die bürgerliche Hetze den Rücken zu stärken!

Bitte meldet euch unter: **germany@onesolutionrevolution.de** mit Namen, Synonym oder dem Namen eurer Organisation/Gruppe, wenn ihr unseren Aufruf Unterstützen wollt!
